

**JANVIER | JANUARY**

- 8 Aly Karsan** |The University of British Columbia, Vancouver, BC, Canada  
*Overcoming Therapy Resistance in the Myeloid Malignancies*
- 15 Julianna Blagih** |Hôpital Maisonneuve-Rosemont, Montréal, QC, Canada  
*Regulating Immune Responses Through Cellular Metabolism and Diet*
- 22 Eugene Yeo** |University of California, San Diego, LaJolla, CA, USA  
*RNA Binding Protein Networks: Elucidation and Applications to RNA Therapeutics*
- 29 Jean-Sébastien Delisle** |Hôpital Maisonneuve-Rosemont, Montréal, QC, Canada  
*Translating T-cell Biology into Therapies; Then and Now*

**FÉVRIER | FEBRUARY**

- 5 Guy Sauvageau** |IRIC, Université de Montréal, Montréal, QC, Canada  
*KBTBD4: A Novel E3 Ligase Complex that Controls Stem Cell Epigenomes: From Discovery to the Clinic*
- 19 Bastian Fromm** |The Arctic University of Norway, Tromsø, Norway  
*Toward the Renaissance of MicroRNA Research Through Curation*

**MARS | MARCH**

- 11\* Jingyi Jessica Li** |UCLA, Los Angeles, CA, USA  
*Enhancing Statistical Rigor in Single-cell and Spatial Omics Data Analysis Using Synthetic Null Data*
- 18\* Edan Foley** |University of Alberta, Edmonton, AB, Canada  
*Commensal-Pathogen Competition Enhances Vibrio Cholerae Pathogenesis*
- 25\* Samuel E. Butcher** |University of Wisconsin, Madison, WI, USA  
*Unusual RNA Folds in Gene Silencing*

**AVRIL | APRIL**

- 8\* Geneviève Deblois** |IRIC, Université de Montréal, Montréal, QC, Canada  
*Metabolic and Epigenetic Adaptations to Microenvironment Reveal Vulnerabilities in Breast Cancer*
- 15\* Imogen Coe** |Toronto Metropolitan University, Toronto, ON, Canada  
*Transporting Knowledge, Transforming Culture: Nucleoside Transporters and the Inclusive Future of Scientific Inquiry*
- 22\* Luca Magnani** |The Institute of Cancer Research, London, UK  
*Sleepwalking Through Evolution: A Tale of Dormancy and Hormone Dependent Breast Cancer*
- 29\* Rafael Garcia-Mata** |University of Toledo, Toledo, OH, USA  
*Regulation of Invadopodia Formation by the Coordinated Action of RhoGEFs and RhoGAPs*

**MAI | MAY**

- 13\* David Hipfner** |IRIC, Montréal, QC, Canada  
*Connecting Epithelial Cell Organization and Local-Scale Tissue Growth Signalling*

**Information**

11h30 - 12h30  
Conférences en anglais  
*Lecture in English*  
Entrée libre | *Free entrance*  
conferences@iric.ca

**IRIC**
